or alternatively e-mail to [education@westlodgefarmpark.co.uk](mailto:education@westlodgefarmpark.co.uk)

## Guided trips - (to be completed by the lead teacher)

### On the day of your visit.....

What is your main aim of visiting West Lodge?

To develop knowledge of a farm and animals that live on a farm. To understand where animals live, eat and do.

Relating to your topic, are you at the beginning, middle or end of the subject? (this will enable us to facilitate links to the children's prior learning)

We will be at the beginning of our topic. Children would have had chicks in school prior to farm visit.

Please provide overall details of the children's present experience of rural surroundings. E.g. - are the children familiar with the countryside/farms/farm animals/outings away from the setting in general etc.?

Some children have been to the farm, not all.

Your guided session will be approximately 1 hour long - incorporating expert knowledge on your chosen subject as well as hands on opportunities (where appropriate), if your focus is for the experience rather than gaining in-depth knowledge then please indicate.

We want to learn facts about animals, what they do + eat, where they live and their young.

The level of information and teaching style delivered, will be planned from the stated age of the children attending and any extra details provided on this form. If there is anything further that you feel the guide should know, enabling a more beneficial experience then please provide details below. (for example, if there is a high number of EAL children or a group of lower/higher ability students etc.)

Activities to self guide (during your free time) are available if you would like to extend the children's learning further (linked to the guided tour) or if you would like to explore a different element of the surroundings, i.e. leaf/tree identification, wildlife hunts, seasonal activities - making the most of your visit with us. Please indicate below and provide details of a subject area, specifics to be covered.

We will self guide during our free time to further experience our knowledge of the farm.

Any other information that you feel we should know, enabling you and the children to gain the most from your experience with us -
